

*Does your tunnel need replaced?
Do you wash 30K, 50K or 60K cars?*

Eclipse™

"With my previous tunnel, I experienced a lot of employee problems – not showing up, theft, etc. The

Eclipse system has eliminated all of that. Also, we're averaging \$2.50 to \$3.00 more per wash with Eclipse."

Doug Kleeschulte — Scrub-A-Dub Carwash, Catskill, NY

"Being open 24 hours a day, 7 days a week gives us an advantage over other tunnels in our area. People know they can come in early in the morning, daytime, nighttime, whenever they want, because they're not restricted by time. Not only that, the Build-A-Wash gives the customers a choice. They don't feel like they have to purchase the top wash to get all of the features."

Gary Bayright — Foam & Wash Car Wash, Poughkeepsie, NY

OASIS CAR WASH SYSTEMS

800.892.3537 • www.oasiscarwashsystems.com

✓ *Less Labor*

<i>Type of Wash</i>	<i>Avg. # Full/Part time Employees</i>
---------------------	--

Full Service Tunnel	25
---------------------	----

Exterior Only Tunnel	8.3
----------------------	-----

Eclipse	1.4
---------	-----

* According to Auto Laundry News 2010 Conveyor Survey

A major advantage of the Eclipse system is the need for fewer employees. This reduces the cost of labor and the potential for employee theft.

✓ *Continuous Operation*

Because it doesn't require an employee to be on hand during operation, the Eclipse system is fully functional **24 hours a day, 7 days a week**. This allows the wash to be open when your customers need it which results in higher revenues.

✓ *Lower Cost*

<i>Equipment Type</i>	<i>Average Cost</i>
-----------------------	---------------------

Full Service Tunnel	\$350,000
---------------------	-----------

Exterior Only Tunnel	\$500,000
----------------------	-----------

Eclipse	Significantly Less. Call for quote.
---------	--

* According to Auto Laundry News 2010 Conveyor Survey

The investment required for the Eclipse is far less than that of a conventional tunnel system. Lower start up costs means your return on investment begins sooner than it would with a full-service or exterior only tunnel.

✓ *Build-A-Wash*

Gives you the functionality of a Tunnel Wash Controller by allowing your self serve customers to upgrade the wash package they have selected with any additional wash functions they may like to purchase.

✓ *Higher Volumes*

<i>Type</i>	<i>Average Cars Washed</i>
-------------	----------------------------

Exterior Only and Full Service	83,613
--------------------------------	--------

Eclipse	No Problem
---------	------------

* According to Professional Carwashing and Detailing 2010 Conveyor Carwash Benchmark Survey Report

Unlike other tunnel systems, the Eclipse is designed to clean 40 cars per hour. It's also environmentally friendly and reduces water and utility usage which results in lower operating costs and higher profit.
