

MyWash[®]

by OASIS

WHAT IS MYWASH BUY UP TECHNOLOGY?

Gives you the opportunity to offer your customers buy ups at the paystation.

- No pressure sales environment
- Gives your customers the Power of Choice
- 1/3 of customers choose buy up options
- Increase revenue by 10-20%

WHAT ARE BUY UPS?

We classify buy ups in two categories

Off Board

External equipment mounted separate from your in-bay automatic

Examples: Tire Scrubbers, Tire Shine Applicators, Dryers, etc.

On Board

Products offered through your in-bay automatic.

Examples: Triple Foam, Hot Wax, RainX, etc.

The Oasis exclusive buy up technology allows you to offer 8 different buy up options to your customers. This can be a combination of off board and on board products.

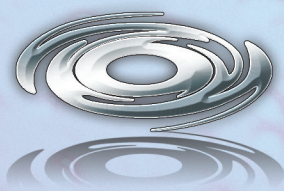

HOW DOES IT WORK?

Your customer selects the wash package and buy ups they desire. The paystation relays information to your Oasis equipment. The Smart Technology then automatically inserts the items into the proper sequence of the wash cycle.

MyWash Buy Up Technology allows you the opportunity to increase your revenue with minimal investment.

Example - If you average \$300 a week in buy up sales...that is over \$15,000 per year

NOW THAT'S THE **POWER OF CHOICE...** YOUR CUSTOMER'S CHOICE.
